HAVING heard no material Objection against the Method, or Form of my former Book, I, (as propos'd in the Preface to the same) continue to pursue the said Method: beginning again with the Places of Royal Plates, and succeeding with the Counties in Alphabetical Order; and forming again the Cock-matches into a distinct List at the End of the Races: Having, this Year added to the Races of England, a List of those in Wales, the same being desired by Gentlemen of that Country, who have been pleas'd to honour me with their Subscriptions; which I mention as the Cause, lest the same should be censured as irregular and unmethodical, my Proposals being limited to England. The Severity of the Winter, together with Accidents in Travelling, has render'd me incapable of answering my Promise of Publishing the following Book by Christmas; altho' I have us'd all possible Expedition.

I have this Year (in regard to the Hints of Persons of great Honour) mention'd at most of the Places where Plates or Prizes have been run for, the Conditions of Entrance, as to Time and Price, and the Number of

Horses that were oblig'd to start, at Places that enjoin the starting a Number.

And should any Noblemen or Gentlemen, who have honour'd me with their Subscriptions, be pleas'd to think upon any other Points, that in the future Years might improve this Affair, by rendering it either further diverting or useful, if they Please to condescend to communicate the same, it shall (unless extremely expensive) be comply'd with, with Readiness and Thanks, by their

THIS Book, as observ'd, being the same in Form with that of the past Year, the Introduction again consists of an Observation on the Number of Royal Plates or Prizes, which Number in the present Year was twelve; every particular one of which consisted as usual of an hundred Guineas in Specie, and eleven of the said twelve run for at the same Places the eleven King's Plates were run for at in 1727. and the twelfth (being this Year new) at the City of *Salisbury*.

And as in the past Year, the first King's Plate of the same run for at *New-Market*, was the first of the

This was the last Prize of this Meeting; the Establishment of which, see in the *Historical List* of 1727, Page the 44th.

On the first *Thursday* in *May*, in conformity to its Establishment, the Stakes were run for at *Walsley*, under the Limitations mention'd in my last; but the Prize again further augmented by Sir *Nathaniel Curzon* Bart. coming into the Subscription; which advances the same to the full Sum of 300 Guineas.

Those that started for this great Prize this Year were the six following.

was out of Sir *Richard's* old *Terror*, and a *Curwen* Mare: 'Twas so near a thing between these two last, that the Judges could not determine which was the best of them.

I forbear to mention by whom these Horses were bred, because my former Book observes that no one can start for this Prize but a Subscriber, nor a Subscriber, for the future, any but of his own Breed.

As this Prize was originally settled for the Term of ten Years, and six of the said ten are expired, (that is, as to the Time of running for the same:) so a certain Gentleman was pleas'd to desire (it being now so superior to all other Prizes in the Kingdom, of this nature) that I would in this Book insert a List of the six Horses, &c. that have won the first six of these Prizes: Wherefore I observe, that the first Prize of this Subscription, being in the Year 1723, was won by *Ld Gower's Bay M. Julia*.

The 2d of the said Prizes, viz. that in 1724, was won by *Sir Rich. Grosvenor's Bay H. Shagg*.

The 3d, viz. that of 1725, was won by the Duke of *Devonshire's Bay M. Mermaid*. Thus far the Sum stood at the original Subscription of 220 Guineas: but at *May 1726*, it was advanc'd to 280 Guineas, and was that Year won by *Sir Rich. Grosvenor's Grey H. Grey Wynn*.

The 5th, viz. that in 1727, was won by *Sir Rich. Grosvenor's Grey H. Spot*.

And the 6th and last, viz. that of the present Year, as was before observ'd, being 300 Guin. won by the Duke of *Ancafter's Grey H. Gentleman*.

On the 11th of *June*, a free Purse of 30 Guineas was run for at *Treape-wood*, Weight 11 st.

There started against him only a Bay M. of Mr. *Bainbridge's*, who, upon losing one Heat, yielded up the Prize.

In running the 3d Heat for the 30 Guineas at this Place, *Carlisle* was so unhappy as to fall, which was the cause of his being distanc'd.

It appears by my former Book, p. 45. that the Engagement for these two Prizes this Year expires, and I have not yet heard that the same is renew'd.

On the 2d of *July*, a free Purse of 26 Guineas was run for at *Great-Budworth*; but the Winner to be fold for such a Sum as would make, with the 26 Guineas won, the Sum of 80 Guineas, Weight 10 *st.*

PROPOSALS

For PRINTING by

SUBSCRIPTION,

Once a Year for 7 Years successively,

AN Historical List of all Horse-Matches run, and of all Plates and Prizes run for in *England*, of the Value of ten Pounds and upwards, in each particular Year of the seven preceding the Publication of each Book.

Containing the Name of the Owner of each Horse, Mare or Gelding that run as above, and Name and Colour of the Horses also.

With the Winner distinguish'd of every Match, Plate, Prize or Stakes ; the Weight that's carry'd at every Place of Running ; the Size that Galloways, &c. are measur'd to, and the Places in which the losing Horses come in ; to which will Annually be added a List of the principal Cock-matches of the respective Year, and who were the Winners and Losers of them, &c.

This Work will be publish'd every Year, about *Christmas*, for Seven Years successively, beginning in 1727.

As the same appearing Annually, in the midst of Winter, will be an agreeable Amusement in that dull unactive Season, rendring Gentlemen capable, even in their Chambers, of diverting themselves with a Prospect, as it were, of the Sport of each past Year; so also must the Advantage be considerable in Point of Practice, each Book discovering what Horses are moving in all Parts of the Kingdom, and what Figure every particular one of 'em has made at the Places of his Running the Season before; what Alterations, different Weights, and different Courses, and different Seasons of the Year has caus'd in any of them. From hence 'twill be always discoverable what old Horses are dropping, and how they decline and go off; what young Horses are every Year coming up; and by what Steps they advance and improve, &c. Which must render Gentlemen capable of reducing their Calculations nearer to perfection, and consequently of matching or betting with greater advantage.

The Conditions are, That Half a Crown be paid at Subscribing, and five Shillings Annually in the said 7 Years, at the delivery of a Book, the last Year only excepted, in which only Half a Crown is to be paid; which, with the Half-Crown received in hand, will make the five Shillings for the last or seventh Book.

Notice will Annually be given in the Papers, as soon as the Work is Printed, and where, in *London*, ready to be deliver'd out;

By JOHN CHENY.

N. B. As the foregoing Book is the second of the Seven, so a Number of the same are Printed, more than are subscrib'd for, with which any Gentleman, &c. may be furnish'd, if pleas'd to subscribe for the five succeeding ones also.

SUBSCRIPTIONS are taken by Mr. Roger Williams, at his Coffee-House in *St. James's-street*; by Mr. Feales, Bookseller, at *Rowe's-Head* in *St. Clement's-Church-Yard*, in the *Strand*, *London*; by the said *John Cheney* as he travels to take his Accounts; and at Inns, Coffee-Houses, &c. in most of the Towns in *England*.
